Introduction

Welcome to the Open International College of Naturopathic Medicine, the No 1 Naturopathic College in Nigeria with international recognition.

As a pioneering institution in the realm of holistic education, we invite you to explore a world where traditional wisdom meets cutting-edge science, empowering you to become a beacon of health, knowledge, and healing.

At OICNM, we transcend boundaries, combining the best of naturopathic medicine, traditional healing practices, and modern research to nurture a new generation of healthcare leaders. Our commitment to your growth, well-being, and academic excellence is woven into every facet of your experience with us.

Join us as we delve into the heart of holistic health, fostering a community where passion, knowledge, and compassionate care converge. Discover more about our programmes, faculty, partnerships, and the myriad possibilities that await you on this transformative journey.

Welcome to a realm where nature,
knowledge, and nurture unite.
Welcome to OICNM.

Who We Are

At the Open International College of Naturopathic Medicine, we stand at the forefront of holistic education, where the principles of naturopathic medicine intertwine with modern scientific advancements. **Our foundation is built upon the belief that true health emerges from a harmonious integration of mind, body, and spirit.**

Our Vision

We envision a world where holistic health is not just a choice, but a way of life. **OICNM strives to be a beacon of transformative education**, shaping compassionate healers who champion wellness in every corner of the globe.

Our Mission

Our mission is to provide a nurturing space where students embark on a journey of self-discovery, academic excellence, and holistic healing. We are dedicated to cultivating a community of lifelong learners who embrace the power of nature, alternative therapies, and evidence-based practices.

Our Approach

At OICNM, we fuse the wisdom of traditional healing practices with the rigor of modern science. Our programmes empower students to delve into naturopathic medicine, herbal therapy, acupuncture, nutrition, and more, supported by a deep respect for nature's innate healing capacities.

Our Distinctiveness

What sets OICNM apart is our unwavering commitment to individualised growth. Our students aren't just learners; they are partners in shaping their own education. With a rich tapestry of faculty expertise, interdisciplinary collaborations, and hands-on experiences, we prepare students to be holistic healthcare leaders of tomorrow.

Join us as we journey into the heart of holistic wellness, where tradition meets innovation, and where your potential finds its purpose. Become part of the OICNM community and contribute to a world where health is holistic, knowledge is transformative, and healing is a shared endeavour.

College Anthem

We're mastering how to heal with nature's flower

From the ancient wisdom that's been passed

We strive to build and strive to tower

To grow a healthier future, hour by hour

And make this world a better place at last

Bringing health to all who need

Striving so hard, we study with grit

Researching hard to unlock the secret of the land

And find the natural remedies that stand

We're learning how to use the power of the earth

To nourish and to heal our bodies and girth

Seeking to understand the root of disease

For the good of us and all with ease

OICNM, OICNM, our pride and future we claim

Accreditation and Recognition

At the Open International College of Naturopathic Medicine, our commitment to excellence is fortified by rigorous accreditation and recognition from esteemed organisations within the realm of holistic healthcare and education.

■ Nigerian Council of Physicians of Natural Medicine (NCPNM)

OICNM is proudly accredited by the Nigerian Council of Physicians of Natural Medicine, a testament to our adherence to the highest standards of naturopathic education. This accreditation underscores our dedication to producing graduates who are poised to make a positive impact on holistic health worldwide.

■ Nigeria Association of Clinical Acupuncturists

Our accreditation by the Nigeria Association of Clinical Acupuncturists further solidifies our position as a pioneering institution in the field of acupuncture and complementary therapies. This recognition reflects our commitment to advancing integrative healthcare practices.

■ Educational Membership with the World Naturopathic Federation (WNF)

We are a member of The World Naturopathic Federation, an international organisation that promotes and supports naturopathic medicine. This step demonstrates our global outlook and commitment to aligning with leading naturopathic institutions worldwide.

■ Recognition by Council of West African Provosts of Alternative Medical Colleges

OICNM's programmes are also recognized by the Council of West African Provosts of Alternative Medical Colleges, reinforcing our contribution to the advancement of alternative medicine education across the West African region.

We are equally recognised by Lagos State Traditional Medicine Board (LSTMB) under the umbrella of Lagos State Ministry of Health.

Our programmes are meticulously designed to meet and exceed the standards set by these prestigious accreditation bodies. At OICNM, we don't just offer education; we provide a pathway to empowerment, innovation, and holistic healing.

Join us in a journey endorsed by accreditation and recognized for excellence. Discover how your aspirations align with an institution committed to shaping the future of holistic healthcare.

WNF Membership Certificate

The Open International College of Naturopathic Medicine

is an Educational member in good standing of the World Naturopathic Federation (WNF), since 2023.

Programmes Offered

The Open International College of Naturopathic Medicine offers a diverse array of programmes designed to empower students with holistic knowledge, practical skills, and a deep understanding of naturopathic medicine and alternative healing practices. Our programmes are meticulously crafted to prepare graduates for meaningful careers that blend tradition with innovation.

Explore the breadth of what we offer as follows:

Doctor of Naturopathic Medicine (ND)

Description

The Doctor of Naturopathic Medicine (ND) at the Open International College of Naturopathic Medicine (OICNM) is a comprehensive and rigorous four-year doctoral programme that prepares students to become skilled and compassionate naturopathic physicians. This programme integrates evidence-based medical science with traditional healing modalities, providing students with a holistic understanding of health and wellness. Graduates of the ND programme are equipped to provide patient-centred, integrative healthcare and promote natural healing approaches.

Who It Is For

The Doctor of Naturopathic Medicine programme is designed for individuals who have a passion for natural medicine, a strong interest in holistic healing, and a desire to make a positive impact on individual and community health. Prospective students may include recent graduates with a background in health sciences, working healthcare professionals seeking to expand their knowledge, or career changers with a genuine interest in naturopathic medicine.

Duration

The ND programme is a full-time, four-year programme. The academic year consists of multiple terms or semesters, and students typically complete the programme within eight consecutive semesters.

Composition

The programme is structured to offer a comprehensive blend of didactic instruction, laboratory experiences, clinical training, and research opportunities. Students engage in both classroom-based learning and practical hands-on experiences to develop their clinical and diagnostic skills.

Courses List

Foundations of Naturopathic Medicine

Anatomy and Physiology

Biochemistry and Nutrition

Botanical Medicine

Homeopathy

Traditional Chinese Medicine and Acupuncture

Physical Medicine and Hydrotherapy

Clinical Diagnosis and Laboratory Interpretation

Integrative Medicine and Evidence-Based Practice

Naturopathic Philosophy and Ethics

Research Methodology in Naturopathic Medicine

Clinical Internship (I-VIII)

Admission Requirements

Applicants to the Doctor of Naturopathic Medicine programme must meet the following requirements:

- A bachelor's degree from an accredited institution with a strong academic background, preferably in health sciences or related fields.
- Prerequisite coursework in basic sciences, including biology, chemistry, and physics.
- Submission of official transcripts from all previously attended institutions.
- A statement of purpose detailing the applicant's motivation for pursuing naturopathic medicine.
- Letters of recommendation from academic or professional references.
- Interview with the Admissions Committee.

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Doctor of Medicine in Acupuncture

Description

The Doctor of Medicine in Acupuncture programme at OICNM is a comprehensive and advanced degree programme designed to provide students with a deep understanding of traditional acupuncture practices, integrative healthcare, and holistic wellness. Through a combination of theoretical knowledge, practical training, and clinical experience, this programme equips students with the skills and expertise needed to excel as qualified acupuncturists in the field of natural medicine.

Who It Is For

This programme is suitable for individuals who are passionate about natural healing, holistic healthcare, and the practice of acupuncture. It is ideal for aspiring acupuncturists, healthcare professionals, and individuals seeking to integrate acupuncture techniques into their existing practices.

Duration

The Doctor of Medicine in Acupuncture programme is typically completed within 4 years, including both coursework and clinical training.

Composition

The programme is composed of a rigorous curriculum that includes theoretical courses, practical hands-on training, and clinical rotations. Students engage in a combination of classroom instruction, laboratory sessions, and clinical practice to ensure a comprehensive learning experience.

Courses List

The curriculum covers a wide range of topics related to acupuncture and holistic healthcare. The courses include:

Fundamentals of Traditional Chinese Medicine

Acupuncture Techniques and Point Location

Herbal Medicine and Formulas

Biomedical Foundations for Acupuncturists

Acupuncture Research and Evidence-Based Practice

Clinical Assessment and Diagnosis

Integrative Approaches to Healthcare

Admission Requirements

Applicants to the Doctor of Medicine in Acupuncture programme should meet the following criteria:

- A bachelor's degree from an accredited institution
- Submission of completed application form and required documents
- Demonstrated interest in natural medicine and acupuncture
- Letters of recommendation
- Interview with Admissions Committee

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Doctor of Traditional Islamic Medicine

Description

The Doctor of Traditional Islamic Medicine programme at OICNM offers a unique and comprehensive exploration of the intersection between traditional Islamic healing practices and modern healthcare. Grounded in the principles of Islamic medicine, this programme equips students with a deep understanding of natural remedies, prophetic medicine, and holistic wellness, integrating ancient wisdom with contemporary healthcare approaches.

Who It Is For

This programme is designed for individuals with a keen interest in both traditional Islamic healing practices and the broader field of natural medicine. It appeals to those aspiring to become practitioners of Islamic medicine, healthcare professionals seeking to incorporate holistic approaches, and individuals committed to promoting wellness in alignment with Islamic principles.

Duration

The Doctor of Traditional Islamic Medicine programme is typically completed within 4 years, encompassing coursework, practical training, and clinical experience.

Composition

The programme comprises a comprehensive curriculum that includes theoretical studies, experiential learning, and hands-on clinical practice. Students engage in a blend of classroom instruction, practical workshops, and supervised clinical rotations to ensure a well-rounded learning experience.

Courses List

The curriculum covers a wide spectrum of topics related to traditional Islamic medicine and holistic health. The courses include:

Fundamentals of Prophetic Medicine

Herbal Remedies in Islamic Tradition

Islamic Nutrition and Dietary Practices

Healing through the Qur'an and Sunnah

Hijaamah (Cupping) Therapy.

Ruqyah

Holistic Approaches to Wellness in Islamic Culture

Integrating Modern and Traditional Islamic Medicine

Admission Requirements

Prospective students should meet the following criteria to be eligible for admission:

- Possession of a bachelor's degree from a recognised institution
- Submission of a completed application form along with required documents
- Genuine interest in traditional Islamic medicine and holistic health
- Letters of recommendation
- Admissions interview

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Diploma in Naturopathy

Description

The Diploma in Naturopathy programme at OICNM offers a comprehensive introduction to the principles and practices of natural medicine. Rooted in holistic wellness and alternative healing modalities, this programme equips students with a foundational understanding of naturopathic approaches, empowering them to support individuals on their journey to well-being.

Who It Is For

This programme is designed for individuals who are intrigued by natural healing and holistic health. It appeals to those seeking a foundational education in naturopathic principles, as well as aspiring healthcare professionals interested in incorporating natural medicine into their practice.

Duration

The Diploma in Naturopathy programme is typically completed within 2 years, including coursework and practical training.

Composition

The programme comprises a balanced curriculum that includes theoretical knowledge and practical application. Students engage in classroom instruction, hands-on training, and experiential learning to gain a well-rounded understanding of naturopathic medicine.

Courses List

The curriculum covers fundamental topics in naturopathy and holistic health. The courses include:

Introduction to Naturopathic Principles

Herbal Remedies and Botanical Therapies

Nutrition and Holistic Dietary Practices

Lifestyle Counselling and Stress Management

Basics of Homeopathy and Natural Healing

Integrative Approaches to Wellness

Admission Requirements

Prospective students should meet the following criteria for admission:

- Open to everyone with a senior school certificate (high school)
- Submission of a completed application form along with required documents
- Interest in naturopathy and holistic health
- Letters of recommendation
- Admissions interview

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Diploma in Natural Reproductive and Infertility Medicine (NARIM)

Description

The Diploma in Natural Reproductive and Infertility Medicine programme at the Open International College of Naturopathic Medicine (OICNM) is a specialised diploma designed to provide students with comprehensive knowledge and skills in the field of natural fertility and reproductive health. This programme combines evidence-based practices with holistic approaches to support and enhance reproductive health and fertility in both men and women. Students gain a deep understanding of the factors influencing fertility and learn natural interventions to optimize reproductive health.

Who It Is For

The Diploma in Natural Reproductive and Infertility Medicine programme is ideal for individuals interested in fertility and reproductive health, including aspiring fertility consultants, healthcare professionals seeking to incorporate natural fertility approaches into their practice, or individuals seeking to support their own fertility journey through natural methods.

Duration

The diploma programme is a part-time programme designed to be completed in 1 year. Please contact OICNM's Admissions Office for detailed information.

Composition

The Diploma in Natural Reproductive and Infertility Medicine programme offers a comprehensive curriculum that covers both theoretical knowledge and practical skills. Students study various aspects of reproductive health, fertility assessments, and natural interventions to optimize **fertility in both men and women.**

Courses List

Introduction to Reproductive Health and Fertility

Anatomy and Physiology of the Reproductive System

Hormonal Balance and Fertility

Nutrition for Fertility Optimization

Herbal Medicine for Reproductive Health

Acupressure and Fertility Support

Mind-Body Techniques in Fertility Enhancement

Fertility Assessments and Diagnostic Tools

Natural Fertility Treatments and Protocols

Integrative Approaches to Assisted Reproduction

Ethical Considerations in Reproductive and Fertility Medicine

Admission Requirements

Applicants to the Diploma in Natural Reproductive and Infertility Medicine programme must meet the following requirements:

- Open to everyone with a senior school certificate (high school).
- A strong interest in reproductive health and fertility.
- A statement of purpose detailing the applicant's motivation for pursuing the diploma.
- Letters of recommendation from academic or professional references
- An interview with the Admissions Committee may be required.

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Diploma in Clinical Acupuncture

Description

The Diploma in Clinical Acupuncture programme at the Open International College of Naturopathic Medicine (OICNM) is a comprehensive and practical diploma designed to equip students with the knowledge and skills needed to practice acupuncture as a standalone therapy or as an integrative modality within healthcare. This programme blends ancient traditional Chinese medicine principles with modern scientific understanding, providing students with a well-rounded education in acupuncture techniques and applications.

Who It Is For

The Diploma in Clinical Acupuncture programme is suitable for individuals who have a keen interest in acupuncture, energy medicine, and holistic healing. This programme is ideal for aspiring acupuncturists, healthcare professionals looking to incorporate acupuncture into their practice, or individuals seeking to explore the ancient art of acupuncture for personal growth and wellness.

Duration

The diploma programme is a part-time programme designed to be completed in 18 months. Please contact OICNM's Admissions Office for more information.

Composition

The Diploma in Clinical Acupuncture programme is structured to provide a comprehensive understanding of acupuncture theory, techniques, and practical applications. Students learn the art of acupuncture needling, meridian theory, and how to address various health conditions through acupuncture therapy.

Courses List

Introduction to Acupuncture and Traditional Chinese Medicine (TCM)

Acupuncture Points and Meridian Pathways

Acupuncture Techniques and Needling Skills

Acupuncture for Pain Management

Acupuncture for Internal Medicine

Acupuncture for Mental and Emotional Health

Acupuncture for Women's Health

Integrative Acupuncture Practice

Acupuncture Practicum and Clinical Training

Admission Requirements

Applicants to the Diploma in Clinical Acupuncture programme must meet the following requirements:

- Open to everyone with a senior school certificate (high school).
- A strong interest in acupuncture and traditional Chinese medicine.
- A statement of purpose detailing the applicant's motivation for pursuing acupuncture.
- Letters of recommendation from academic or professional references (if available).
- An interview with the Admissions Committee may be required.

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Diploma in Traditional Herbal Medicine

Description

The Diploma in Traditional Herbal Medicine programme at the Open International College of Naturopathic Medicine (OICNM) is a comprehensive and practical diploma programme designed to provide students with in-depth knowledge and skills in the field of herbal medicine. This programme combines traditional herbal wisdom with modern scientific research, preparing students to become competent herbalists who can effectively and safely use medicinal plants to promote health and well-being.

Who It Is For

The Diploma in Traditional Herbal Medicine programme is suitable for individuals who have a passion for herbal remedies, botanical medicine, and natural healing. This programme is ideal for aspiring herbalists, health practitioners seeking to integrate herbal medicine into their practice, or individuals interested in exploring alternative approaches to wellness through the use of medicinal plants.

Duration

The diploma programme is a part-time course designed to be completed in 2 years. Please contact the Admissions Office for more information.

Composition

The Diploma in Herbal Medicine programme offers a balanced blend of theoretical knowledge and practical training. Students gain hands-on experience in identifying, harvesting, and preparing medicinal herbs, as well as formulating herbal remedies. The programme emphasizes the safe and effective use of herbs in various health conditions.

Courses List

Introduction to Herbal Medicine

Botany and Plant Identification

Medicinal Properties and Uses of Herbs

Herbal Preparations and Formulations

Herbal Pharmacology and Safety

Herbal Therapeutics and Clinical Applications

Herbal Medicine in Integrative Healthcare

Herbal Medicine Making and Practical Application

Herbal Garden and Cultivation

Ethical and Legal Considerations in Herbal Practice

Admission Requirements

Applicants to the Professional Diploma in Herbal Medicine programme must meet the following requirements:

Open to everyone with a senior school certificate (high school).

A strong interest in herbal medicine and natural healing.

A statement of purpose detailing the applicant's motivation for pursuing herbal medicine.

Letters of recommendation from academic or professional references (if available).

An interview with the Admissions Committee may be required.

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Certificate in Diet & Nutrition Therapy in Cancer

Description

The Diet & Nutrition Therapy in Cancer Programme at OICNM offers specialized training in using diet and nutrition as complementary therapies for individuals affected by cancer. Rooted in evidence-based practices, this programme equips students with the knowledge and skills to provide personalized dietary guidance that supports cancer patients' well-being during their treatment and recovery journey.

Who It Is For

This programme is designed for individuals passionate about holistic health and its application in cancer care. It appeals to aspiring nutrition professionals, healthcare practitioners, and individuals seeking to provide informed dietary support to cancer patients.

Duration

The Diet & Nutrition Therapy in Cancer Programme is typically completed within 4 weeks, encompassing coursework and practical training.

Composition

The programme consists of a focused curriculum that combines theoretical knowledge, practical application, and clinical insights. Students engage in classroom learning, case studies, and practical exercises to gain a comprehensive understanding of nutrition therapy in cancer care.

Courses List

The curriculum covers a range of topics related to nutrition therapy and cancer care. The courses include:

Basics of Oncology Nutrition

Nutritional Considerations During Cancer Treatment

Integrating Holistic Nutrition in Cancer Care

Dietary Strategies for Managing Side Effects

Antioxidants, Phytochemicals, and Immune Support

Personalized Nutrition Plans for Cancer Patients

Ethical and Cultural Considerations in Oncology Nutrition

Admission Requirements

Prospective students should meet the following criteria for admission:

- Open to everyone with a senior school certificate (high school)
- Submission of a completed application form along with required documents
- Demonstrated interest in nutrition therapy and cancer care
- Strong academic background with relevant coursework
- Letters of recommendation
- Admissions interview

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Certificate in Weight Management

Description

The Weight Management Programme at OICNM offers comprehensive training in the principles and practices of healthy weight management. Rooted in holistic wellness, this programme equips students with the knowledge and skills to guide individuals towards achieving and maintaining their desired weight goals through evidence-based approaches.

Who It Is For

This programme is designed for individuals passionate about promoting health through weight management. It appeals to aspiring nutrition professionals, healthcare practitioners, and individuals seeking to help others achieve balanced weight goals.

Duration

The Weight Management Programme is completed within 4 weeks, encompassing coursework and practical training.

Composition

The programme consists of a balanced curriculum that covers both weight loss and weight gain strategies. Students engage in classroom learning, case studies, and practical exercises to gain a comprehensive understanding of healthy weight management.

Courses List

The curriculum covers a range of topics related to weight management and holistic wellness. The courses include:

Fundamentals of Weight Management

Nutritional Strategies for Healthy Weight Loss

Metabolism and Energy Balance

Emotional Eating and Behavioural Change

Nutritional Approaches for Healthy Weight Gain

Physical Activity and Exercise in Weight Management

Personalized Weight Management Plans

Admission Requirements

Prospective students should meet the following criteria for admission:

- Open to everyone with a senior school certificate (high school)
- Submission of a completed application form along with required documents
- Demonstrated interest in weight management and holistic health
- Letters of recommendation
- Admissions interview

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Certificate in Healthy Living

Description

The Healthy Living Programme at OICNM offers a comprehensive exploration of holistic wellness and healthy lifestyle practices. Rooted in the principles of natural medicine, this programme equips students with the knowledge and tools to guide individuals towards achieving optimal health through balanced nutrition, physical activity, stress management, and mindful living.

Who It Is For

This programme is designed for individuals passionate about promoting holistic well-being and healthy lifestyles. It appeals to aspiring health coaches, nutrition professionals, and individuals seeking to educate and support others in their journey towards vibrant health.

Duration

The Healthy Living Programme is completed within 2 weeks, encompassing coursework and practical training.

Composition

The program consists of a well-rounded curriculum that covers various aspects of healthy living. Students engage in classroom learning, hands-on exercises, and experiential activities to gain a comprehensive understanding of holistic wellness.

Courses List

The curriculum covers a range of topics related to healthy living and holistic wellness. The courses include:

Principles of Holistic Health

Balanced Nutrition for Optimal Well-being

Mindfulness and Stress Management Techniques

Physical Activity and Exercise for a Healthy Lifestyle

Emotional Well-being and Positive Psychology

Integrating Holistic Practices in Daily Life

Creating Personalized Wellness Plans

Admission Requirements

Prospective students should meet the following criteria for admission:

- Open to everyone with a senior school certificate (high school).
- Submission of a completed application form along with required documents
- Demonstrated interest in holistic health and healthy living practices
- Admissions interview

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Certificate in Pain & Paralysis Management

Description

The Pain & Paralysis Management Programme at OICNM offers specialised training in holistic approaches to managing pain and paralysis. Rooted in natural medicine principles, this programme equips students with the knowledge and skills to provide comprehensive care and support to individuals dealing with pain, paralysis, and related conditions.

Who It Is For

This programme is designed for individuals passionate about alleviating suffering and improving the quality of life for those experiencing pain and paralysis. It appeals to aspiring healthcare professionals, naturopathic practitioners, and individuals seeking to make a positive impact in pain and paralysis management.

Duration

The Pain & Paralysis Management Programme is typically completed within 16 weeks, encompassing coursework, practical training, and clinical experience.

Composition

The programme comprises a comprehensive curriculum that combines theoretical knowledge, practical skills, and clinical insights. Students engage in classroom instruction, hands-on training, and case studies to develop a well-rounded understanding of pain and paralysis management.

Courses List

The curriculum covers a wide range of topics related to pain management, paralysis care, and holistic approaches. The courses include:

Principles of Pain Management

Naturopathic Approaches to Pain Relief

Rehabilitation Strategies for Paralysis

Herbal Medicine for Pain and Inflammation

Mind-Body Techniques for Pain Relief

Nutritional Support for Nerve Regeneration

Personalized Care Plans for Paralysis

Admission Requirements

Prospective students should meet the following criteria for admission:

- Open to everyone with a senior school certificate (high school)
- Submission of a completed application form along with required documents
- Demonstrated interest in pain and paralysis management
- Letters of recommendation
- Admissions interview

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Certificate in TCM Diagnosis

Description

The TCM Diagnosis Programme at OICNM offers specialized training in Traditional Chinese Medicine (TCM) diagnosis techniques. Rooted in ancient wisdom and holistic healing, this programme equips students with the knowledge and skills to accurately assess and diagnose health imbalances using TCM principles and diagnostic methods.

Who It Is For

This programme is designed for individuals intrigued by the holistic approach of Traditional Chinese Medicine and its diagnostic techniques. It appeals to aspiring TCM practitioners, healthcare professionals, and individuals seeking a deeper understanding of TCM diagnosis.

Duration

The TCM Diagnosis Programme is typically completed within 16 weeks, encompassing coursework, practical training, and clinical experience.

Composition

The programme comprises an in-depth curriculum that covers TCM diagnostic methods and their application. Students engage in classroom instruction, hands-on practice, and clinical observations to develop a profound understanding of TCM diagnosis.

Courses List

The curriculum covers a range of topics related to TCM diagnosis and holistic health. The courses include:

Foundations of Traditional Chinese Medicine

Pulse Diagnosis and Interpretation

Tongue Diagnosis and Analysis

Observation of Facial Signs and Body Features

Five Element Diagnosis and Constitutional Analysis

Diagnostic Methods in TCM Pattern Identification

Integrating TCM Diagnosis with Treatment Planning

Admission Requirements

Prospective students should meet the following criteria for admission:

- Possession of a bachelor's degree or equivalent in a relevant field
- Submission of a completed application form along with required documents
- Demonstrated interest in Traditional Chinese Medicine and diagnostic techniques
- Strong academic background with relevant coursework
- Letters of recommendation
- Admissions interview

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Certificate in Herbal Medicine Treatment for Chronic Diseases

Description

The Herbal Medicine Treatment for Chronic Diseases Programme at OICNM offers comprehensive training in utilizing herbal remedies for managing chronic health conditions. Rooted in holistic healing, this programme equips students with the knowledge and skills to provide effective and natural treatments for individuals dealing with chronic diseases.

Who It Is For

This programme is designed for individuals interested in harnessing the healing power of herbs to address chronic health challenges. It appeals to aspiring herbalists, naturopathic practitioners, healthcare professionals, and individuals seeking alternative approaches to chronic disease management.

Duration

The Herbal Medicine Treatment for Chronic Diseases Programme is typically completed within 16 weeks, encompassing coursework, practical training, and clinical experience.

Composition

The programme comprises an extensive curriculum that covers the principles of herbal medicine and its application in chronic disease management. Students engage in classroom instruction, herbal preparations, case studies, and clinical rotations.

Courses List

The curriculum covers a range of topics related to herbal medicine and chronic disease management. The courses include:

Foundations of Herbal Medicine

Herbal Pharmacology and Therapeutics

Herbal Formulation and Dosage

Herbal Approaches to Cardiovascular Health

Herbal Protocols for Immune System Support

Herbal Strategies for Digestive Health

Case Studies in Herbal Treatment for Chronic Diseases

Admission Requirements

Prospective students should meet the following criteria for admission:

- Open to everyone with a senior school certificate (high school)
- Submission of a completed application form along with required documents
- Demonstrated interest in herbal medicine and chronic disease management
- Letters of recommendation
- Admissions interview

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Certificate in Herbal Medicine Protocol for Autism and ADHD

Description

The Herbal Medicine Protocol for Autism and ADHD Programme at OICNM offers specialized training in using herbal remedies to support individuals with autism spectrum disorder (ASD) and attention-deficit/hyperactivity disorder (ADHD). Rooted in holistic healing, this programme equips students with the knowledge and skills to provide natural and supportive treatments for individuals with autism and ADHD.

Who It Is For

This programme is designed for individuals passionate about offering alternative and natural approaches to individuals with autism and ADHD. It appeals to aspiring naturopathic practitioners, healthcare professionals, parents, caregivers, and individuals seeking holistic strategies for autism and ADHD support.

Duration

The Herbal Medicine Protocol for Autism and ADHD Programme is completed within 12 weeks, encompassing coursework, practical training, and clinical experience.

Composition

The programme comprises a comprehensive curriculum that covers the principles of herbal medicine and its application in supporting individuals with autism and ADHD. Students engage in classroom instruction, hands-on herbal preparations, case studies, and clinical rotations.

Courses List

The curriculum covers a range of topics related to herbal medicine and holistic approaches for autism and ADHD. The courses include:

Understanding Autism Spectrum Disorder and ADHD

Herbal Remedies for Anxiety and Sensory Challenges

Nutritional Support for Cognitive Function

Herbal Approaches to Behaviour Management

Integrating Herbal Therapies into Holistic Treatment Plans

Case Studies in Herbal Treatment for Autism and ADHD

Admission Requirements

Prospective students should meet the following criteria for admission:

- Open to everyone with a senior school certificate (high school)
- Submission of a completed application form along with required documents
- Demonstrated interest in herbal medicine and holistic support for autism and ADHD
- Letters of recommendation
- Admissions interview

10 working/business days for review and screening of application after which admission notification will be sent to successful applicants.

Physical Skills Training Programme

Description

At OICNM, we value inclusiveness. This is why we have designed our programmes to be all-inclusive, accepting almost anybody and everybody who fits into each and every course of study. We have done this so well that nobody will be left out. This skills training programme is for anyone with a passion for natural medicine but who holds no prior certificate.

Who It Is For

Based on our understanding that many people want to become a naturopathic medicine practitioner but held by their lack of even the lowest certificate. No worries, this programme is for you. Whether you are an existing practitioner with no prior formal education yet want to upgrade your knowledge and skills in natural medicine practice or maybe you are from an entirely different field and wants to make a career change into natural medicine, this is for you.

Duration

The Skills training Programme is completed within 6 weeks, encompassing practical training, and clinical experience.

Admission Requirements

You are eligible for this programme if...

- You're passionate about natural medicine
- You prefer physical learning to an online platform for genuine reasons
- You're willing to follow instructions strictly and do assignment accordingly

Method of Instruction

It's an 100% physical class

Learning Outcome

By the end of this training, participants should have...

Learnt the rudiments of becoming a professional naturopathic physician

Faculty

Expertise

Our faculty members at the Open International College of Naturopathic Medicine are at the forefront of holistic education and practice. With a deep commitment to fostering holistic health, our diverse team brings a wealth of experience, expertise, and passion to the classroom and beyond.

Here's what sets us apart from the rest:

Nurturing Excellence

Our faculty members are dedicated to nurturing excellence in every student. With extensive backgrounds in naturopathic medicine, traditional healing practices, research, and clinical experience, they serve as mentors, guides, and partners on your educational journey.

What sets our faculty apart is their interdisciplinary collaboration. From herbal medicine doctors and acupuncture specialists to nutritionists and traditional Chinese medicine practitioners, our faculty collaborate to offer you a comprehensive education that bridges the gap between conventional and holistic healthcare.

Interdisciplinary Collaboration

Real-World Insights

Drawing from real-world insights, our faculty members share practical case studies, research breakthroughs, and hands-on experiences that enhance your learning. With their guidance, you'll explore the intricate connections between science, nature, and holistic wellness.

Our faculty members go beyond the classroom, offering mentorship and support that extends beyond your time at OICNM. They are committed to empowering you to become a knowledgeable and compassionate healthcare professional who can make a meaningful impact in the world.

At OICNM, our faculty is the cornerstone of our commitment to holistic education. Join us in embracing the collective wisdom and expertise they bring to our vibrant learning community.

Empowering Your Journey

Clinical Training and Partnerships

At the Open International College of Naturopathic Medicine, we believe in the transformative power of hands-on experience and collaborative partnerships. Our commitment to providing exceptional clinical training sets us apart as a leader in holistic education, preparing you for a dynamic career in naturopathic medicine and holistic healthcare.

Olaking International Holistic Medicine Clinic

Partnership

One of our valued partnerships is with Olaking International Holistic Medicine (OIHM) Clinic, a renowned healthcare institution dedicated to holistic wellness. Through this collaboration, OICNM students gain access to invaluable clinical training opportunities, where classroom knowledge is seamlessly integrated into real-world practice.

Benefits of the Partnership

Practical Experience: Our students benefit from immersive clinical experiences, enhancing their diagnostic and therapeutic skills.

Mentorship: Seasoned practitioners at OIHM Clinic provide mentorship, guidance, and insights into holistic patient care.

State-of-the-Art Facilities: Students access modern facilities equipped for holistic treatments and patient consultations.

Research Opportunities: Collaboration with OIHM Clinic fosters research initiatives that contribute to the advancement of holistic healthcare.

Your Future, Our Priority

We understand the importance of preparing you for a fulfilling career. Our partnerships, like the one with OIHM Clinic, offer you a unique advantage as you embark on your journey to becoming a natural healthcare practitioner.

At OICNM, we ensure that your education goes beyond the classroom, empowering you to make a lasting impact on the health and well-being of individuals and communities.

Join us to discover how our clinical training and partnerships can shape your holistic healthcare journey at OICNM.

Student Life

At the Open International College of Naturopathic Medicine, student life is a vibrant tapestry woven with academic excellence, personal growth, and holistic wellness. Our college is a nurturing space where students flourish as they embark on a transformative journey toward becoming holistic healthcare leaders.

Holistic Community

OICNM is more than an institution; it's a community united by a shared passion for holistic health. Here, you'll connect with like-minded peers, dedicated faculty, and practitioners who are committed to embracing the power of nature's healing wisdom.

Support Services

Your well-being is our priority. We offer comprehensive support services, including counselling, wellness programmes, and academic guidance, to ensure you thrive in every aspect of your journey.

Global Perspective

Embrace a global outlook through our diverse student body and international collaborations. Engage in cross-cultural experiences that broaden your horizons and deepen your understanding of natural medicine on a global scale.

Your Journey, Your Story

At OICNM, your journey is as unique as you are. Whether you're delving into research, practicing hands-on therapies, or immersing yourself in holistic philosophy, your story is central to our community's narrative.

Join us at OICNM, where student life is a blend of learning, growth, and wellness. Discover your path to becoming a naturopathic healthcare leader in a supportive and vibrant environment.

Internship/Apprenticeship Opportunities

At the Open International College of Naturopathic Medicine, we understand that hands-on experience is a vital component of your holistic education. That's why we offer a range of internship and apprenticeship opportunities that allow you to apply your knowledge in real-world settings and gain valuable practical experience.

Why Choose OICNM for Your Internships/Apprenticeships

Diverse Placement Options:

We partner with a network of holistic healthcare institutions, clinics, and wellness centres, providing you with a wide range of placement options to suit your interests and career goals.

Mentorship:

During your internship or apprenticeship, you'll have the opportunity to work closely with experienced practitioners and holistic healthcare experts who will guide and mentor you.

Hands-On Learning:

Put your classroom knowledge into practice. You'll engage in real patient care, holistic therapies, and diagnostic methods, deepening your understanding of naturopathic medicine.

Networking:

Build valuable professional connections in the holistic healthcare field. Your internship or apprenticeship can open doors to future career opportunities and collaborations.

CV Enhancement:

A successful internship or apprenticeship experience at OICNM can significantly enhance your resume, making you a more attractive candidate in the competitive healthcare job market.

Types of Internship/ Apprenticeship Opportunities

Clinical Internships:

Work alongside experienced naturopathic doctors, herbalists, acupuncturists, and nutritionists, gaining exposure to diverse patient cases and treatment modalities.

Holistic Wellness Centres:

Join wellness centres and holistic spas to learn about holistic lifestyle counselling, mindfulness practices, and wellness program development.

Research Collaborations:

Engage in research projects related to naturopathic medicine, herbal medicine, and holistic healthcare, contributing to advancements in the field.

Nutrition Consultancies:

Assist nutritionists in conducting dietary assessments, meal planning, and nutritional counselling for clients seeking holistic dietary guidance.

Herbal Apothecaries:

Gain hands-on experience in herbal medicine preparation, formulation, and the creation of herbal remedies.

Eligibility and Application Process

Internship and apprenticeship opportunities are typically available to students who have completed specific coursework or achieved certain milestones in their programme. Our career services team will provide guidance on eligibility criteria and the application process.

Your Path to Holistic Healthcare

An internship or apprenticeship at OICNM is more than just a requirement; it's a transformative experience that prepares you for a successful career in holistic healthcare. Explore the world of naturopathic medicine, gain practical skills, and make meaningful contributions to holistic wellness.

For more information on internship and apprenticeship opportunities at OICNM, please contact our career services team.

CONVOCATION

August: 23, 24, 25

February: 23, 24, 25

Examination and Grading System

At the Open International College of Naturopathic Medicine, we take academic assessment seriously, striving to maintain fairness and transparency in evaluating your progress. Our examination and grading system is designed to provide a comprehensive view of your academic performance while promoting a culture of continuous learning and improvement.

Components of Assessment

Attendance (10%):

Regular attendance is a key element of successful learning. To encourage your commitment to the learning process, we consider your attendance, with a minimum requirement of 70%, as a component of your overall grade.

10%

Assignments/ Presentations (10%):

Your engagement with course materials and your ability to apply what you've learned are assessed through graded assignments. These assignments contribute to your final grade.

10%

Tests (20%):

Periodic tests are conducted to assess your understanding of course content. These tests help you gauge your progress and contribute to your overall grade.

20%

Examinations (60%):

The culmination of your academic efforts, examinations are weighted heavily, accounting for a significant portion of your final grade. Our examinations encompass various formats, including Multiple Choice Questions (MCQs), essay writing, and oral assessments.

60%

Grading Scale

We use a standard grading scale to evaluate your performance:

80 - 100: A (5 points)	- Distinction
70 - 79: B (4 points)	- Very good
60 - 69: C+ (3 points)	- Good
55 - 59: C (2 points)	- Average
50 - 54: D (1 point)	- Poor/Resit
0 - 49: F (0 points)	- Fail/Course retake

Reassessment and Improvement

For students who may not achieve their desired grades, we offer opportunities for improvement. Paper resits are available within a month from the exam period, allowing you to address areas where you may not have performed as expected.

Overall Performance

At the end of each semester, your overall performance is assessed. If you fall into the "F" category, it may lead to withdrawal or repeat of the course(s) failed. For those who receive a "D," repeating the semester or promotion on probation may be advised. Students achieving grades ranging from "C" to "A" will be promoted to the next semester.

A Commitment to Your Success

At OICNM, we are committed to your academic growth and success. Our examination and grading system is designed to encourage diligent study habits, regular attendance, and a pursuit of excellence in your academic journey.

Our Grading System in a Table

Below is a tabular representation of our grading system explained above.

Component	Percentage (%)	Grade Scale	Description
Attendance	10		Must have minimum 60% attendance.
Assignment/ Presentation	10		At least 1 graded assignment or presentation.
Test	20		At least 1 graded test.
Exam Points	60	80 – 100: A (5 points) 70 – 79: B (4 points) 60 – 69: C+ (3 points) 55 – 59: C (2 points) 50 – 54: D (1 point) 0 – 49: F (0 point)	Multiple Choice Questions (MCQ), Essay Writing, and Oral.
Paper Resit			Takes place within a month from the exam period.
Overall Performance		F: Withdraw D: Repeat Semester C – A: Promote	Assessment of overall semester performance. Repeating a Semester twice also leads to Withdrawal

We believe that by upholding high academic standards and offering opportunities for improvement, you can reach your full potential and contribute positively to the field of natural medicine.

Tuition Fees

Our tuition fees vary based on the programme you choose. Detailed tuition information for each programme can be found on [our website](#) and in your programme-specific materials.

Ready to join our students from different parts of the world such as UK, Qatar and other African countries?

Welcome.

Testimonials

ZAINAB AJOKE OWOYEMI

OICNM provided me with opportunities to develop myself further and take learning beyond the classroom to real-life situations through wonderful projects, assignments, tests and examinations. It was a very challenging experience.

During my learning at OICNM, I had a better understanding of nature and health than I had previously. Now, with God's help, using Traditional Chinese Medicine and Natural Medicine, fertility would be resolved and health would be restored.

Thank you OICNM!

God Bless OICNM!

ESTHER EBELEGHE (South Yorkshire, United Kingdom)

My experience in Open International College of Natural Medicine (OICNM) and studying the NARIM Course has been eye opening, intriguing, and filled with a lot of suspense, making you want to discover and learn more.

Being a student in OICNM is like being part of a family who supports, guides, and encourages you through every step of your learning journey.

Although I have had to defer my course once again due to family, educational and work commitments.

I can honestly and proudly say that I will be back to finish this course because it is worth every bit of sacrifice.

NARIM Course is number one of its kind in Nigeria.

The college itself is constantly asking for feedback and then providing us with feedback on what measures they are taking. They appear to have a process of continuous improvement.

The college's success is very much certain with the calm and humble leadership of Dr. Olaking, the college's Provost and lead Lecturer.

If you are considering studying at OICNM, "JUST DO IT", you won't regret it.

"Walk with three people and you will learn something from at least one of them" (Confucius).

Walk with the Team at OICNM and your life will change — forever. Guaranteed.

Testimonials

PERPETUAL ONYEACHO

My experience on the NARIM course has been mind-blowing. Never believed I had the capacity to learn and comprehend the much I have in a very short time. I have been taking professional courses but none is closely compared to this.

The syllabus is very rich, I'll say the lecturers are well trained to deliver on this course considering the different background of students. Their mode of teaching gives room for flexibility, students are free to ask questions as much as possible, and their constant encouragement spurs one to remain steadfast. They are such an awesome team!

Although the program requires a lot of dedication, personal discipline for self-study and research; the transformational knowledge gained is worth every bit of the "stress". If I can go through the course as a Banker, (especially because of the flexibility granted from time to time by the OICNM Management) I believe any dedicated person with a keen interest to gain knowledge in Naturopathy will also excel in it.

ISA KEHINDE OSENI

I've always been feeling privileged to have come across and learned from OICNM, the only naturopathic medicine college I've seen in Nigeria after thorough research to be of international standard, in the curriculum, ways of passing knowledge, and flexibility. It gladdens my heart always that I learnt from the personalities of teachers at this College, they're always in the habit of being benevolent.

I strongly recommend that people enrol and study in this college, you'll never regret you did so!

Thanks and long live The OICNM.
